- Contrast Ratio: 1000:1
- Response Time: 8ms
- Glare and Hard Coating 3H
- Inputs VGA, DVI-D, S-Vid, CVS, YPbPr
- Optional HDMI, HD/SD-SDI, 3G

*Optional Highbright LCDs also Available

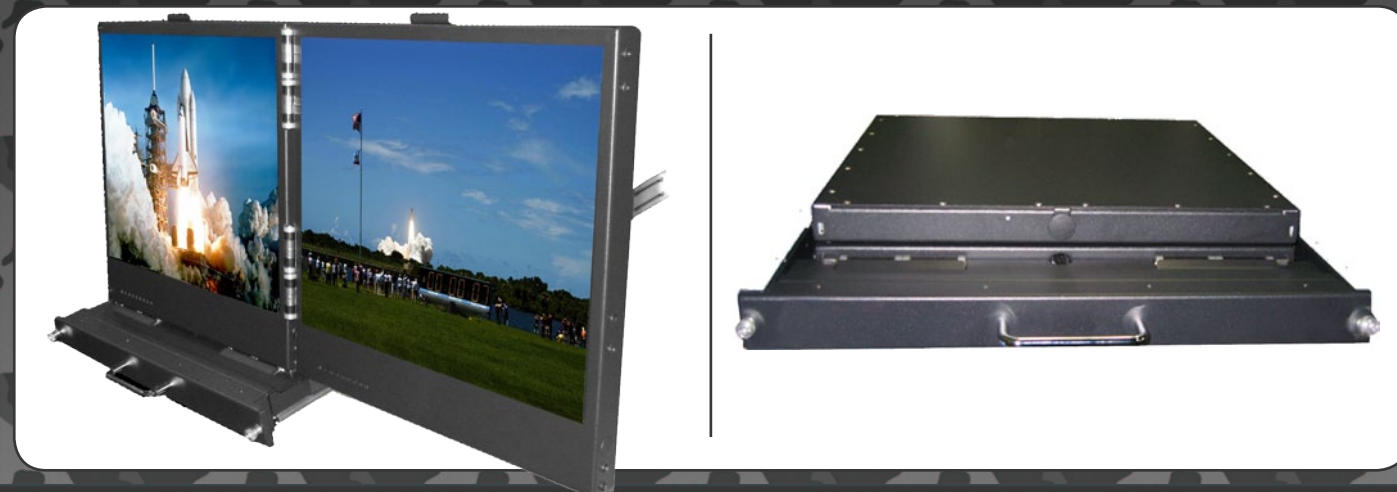

The PDD3-F26170Wx3 Series of Display Drawers is an innovative full featured display drawer concealing up to Three 17" FHD LCD Monitors in only 2RU(3.5") of space. Taking advantage of the 26" depth this drawer is not only available in the Triple 17" Wide configuration, but it also supports a Dual 17" Wide and even a Dual 19" configuration as well.

The PDD3-F26170Wx3 also employs our patent pending three part Rack Motion Stabilization System (RMS). The rack slide tensioning position system secures the drawer while in operation, while the Secure Stow Technology ensures the monitors do not move in transit. Gas Shock Monitor Stabilizers coupled with Multi Position Torque Hinges also allow almost infinite monitor positioning capabilities.

This platform utilizes telescoping front ears and rear arms with mounting hardware options for Standard Rack, Transit Case, Flight Pack or Mobile Installations.

Various customizable options are available.
