DETAIL F
SCALE 1 : 1

Revers L Trasit Case Arms can be adjusteted to fit almost
any trasit case dept. **from 24" to over 32"**, The benefit of our
trasit case arms is the straight in installation. no need to remove
components above or below the assembly or to twist the assembly
to get it in. simply install the Reverse L bracket and install onto your
Rear virtil post were you want the unit in its final state. Measure the distance
from the front beam to the reverse L mounting holes. Adjust the Slide arems and
tighten the Arm Screws. Slide the unit straight in manmount to the fron beam and
the reverse L bracet holes.
